

June 2018

Dear Rising Seventh Grade Families,

I am pleased to tell you that we will be using IXL for our 2018 summer work and in our classroom this fall. IXL is a comprehensive math review site with an unlimited number of practice questions in hundreds of skills. One of the best things about IXL is that your child can access it from home, so you have a chance to see your child's progress!

To get your child started on your home computer, please follow these easy steps:

1. Go to [www.IXL.com](http://www.IXL.com)
2. Enter your child's username and password in the upper right corner and click the button to sign in. Please find these on the following page.
3. Click on Math and select the assigned grade level. Then work on problems in the categories below.

Grade Level: 6th grade:

E (Number Theory) E.2, E.3, E.5

M (Integers)

N (Operations)- N.5, N.7, N.9, N.11

O (Mixed Operations) - 0.1, 0.2, 0.4, 0.6, 0.7, 0.9, 0.11

Q- (Problem-Solving and Estimation) - Q.2

S- (Percents) - S.1, S.2

X (Coordinate Plane)

Z (One-Variable equations)

I want to challenge each student to join the 300/300 Club. To join, each student should have at least 300 problems completed correctly over the entire summer and at least 300 minutes spent working on IXL. Students should use the above as guidelines in their study of math this summer. Some students may feel the need to review previous material, and others may want to try problems from categories that are not listed. Both types of practice are encouraged. However, be sure some practice is done from each of the categories above. I hope you will encourage your student to use IXL daily. Here is to an excellent year in math!

Happy learning,  
Your future math teacher

## Spanish Summer Work

### **ALL students:** [Duolingo](#)

All students should practice all of the designated assignments for your class. We have already practiced most, if not all, of these skills. You can try to test out what you know! This work will count as a project grade in the fall.

### **NEW students:**

1. Please practice on Duolingo as directed above.
2. Please practice Quizlet. Join the class using this link. (Please know that I will not have your log-in information so SAVE these usernames and passwords in a safe place, making them accessible from various devices.)

**For a new account:** <https://quizlet.com/join/KNKDZSnUv>

Practice as many sets as you can, as these are the structures your incoming class knows how to use. MAKE SURE your username starts with your first name, so that you are easily identifiable. There's no need to include your last name.

3. Attend "*Spanish survival camp*" this August. The schedule is:

Tues-Th, August 14-16, 9-11am

Tues-Th, August 21-23, 9-11am

This will be held at GSFS, in the Spanish room on the 3rd floor. Please enter the door on Armat Street. All you need to bring is yourself. Make sure you have practiced Duolingo and Quizlet prior to coming.

Gracias,  
Kristin Shiplier
