Email

- Please return to school in September with a Gmail account – we will be using Google Documents to share materials and using the email to log into certain learning sites; Gmail is a free account and students can have one that is strictly used for school

Special Note on Locker Shelves:

- We have enough locker shelves for each student in the class that we will hand out on the first day. If the shelf you receive is not your preference of style or color, you can choose to purchase your own.

We also encourage students to re-use as many items as possible that they might have left over from last year.
